## AFRL awards more than \$2.6 million to universities

*by Francis L. Crumb, Information Directorate*

ROME, N.Y. -- The Air Force Research Laboratory Information Directorate at Rome has recently awarded contracts and grants totaling more than \$2.6 million to colleges and universities across the country.

Institutions receiving funds for research programs related to the directorate's information technology mission included:

— **Cornell University**, \$1,098,321, "Quicksilver: Middleware for Scalable Self-Regenerative Systems."

— **Syracuse University**, \$465,343, "Use of Modulation Diversity in Waveform Design."

— **Syracuse University**, \$259,762, "Adaptive Open-Set Speaker Identification Using a Genetic Rule-Based Classifier System, A New Temporal Recognition Method."

— **University of Southern California**, \$597,273, "Processing-in-Memory Technology for Knowledge Discovery Algorithms."

— **Stanford University**, \$125,373, "Exploring the Utility of ResearchCyc for Reasoning from Natural Language."

— **Rensselaer Polytechnic Institute**, \$74,981, "Third Generation Wargame." @
